### VicNet

Encourage participation with our volunteer portal! Volunteers download a mobile app or use a computer to sign up for shifts, receive messages, update their profiles, upload documents, and post hours.

### VicTouch

Track service time accurately and see who's on-site in real time with our industry leading time clock. Volunteers sign in and out on a tablet or computer, or scan a QR code with their phone.

### VicDocs

Go paperless and upload volunteer documents, or allow volunteers to upload their own. Then query who has or hasn't uploaded needed waivers and documentation.

### Verified First

A world-class background screening integration! Connect with Verified First to send and review background screenings without leaving Volgistics.

### ROBUST REPORTING

Use a wide array of reports to retrieve specific information from your volunteer records. Stock and custom templates to produce files in PDF or Excel.

### SCHEDULING

Build one-time and repeating shifts to easily track where volunteers are needed, prevent overbooking, and layout your plan for future opportunities.

### MULTI-SITE CAPABLE

Use Volgistics at one site or multiple. Operators at each site see only the volunteers for their location while headquarters operators manage all sites.

### RECRUIT VOLUNTEERS

Recruiting is made easier with online application forms, online opportunity directories, and by searching your database to find qualified volunteers to fill openings.

### SIGN-IN KIOSK

Volunteers can sign in and out on a shared tablet, computer, or scan a QR code on their phone. This provides accurate service times and shows you who is on-site in real time.

### WEB BASED

Volgistics is online software that you can access from anywhere, there's no software to install or download, no maintenance chores, and no need for IT involvement.
